

Note&coin

BANKNOTE AND COIN COUNTER

DESIGN ♦ PERFORMANCE ♦ USER EXPERIENCE

Counting cash has never been easier or more reliable than with Note&coin banknote and coin counter

- Count loose and packaged banknotes
- Count loose, bagged and rolled coins
- Count the entire till in under a minute
- View and print detailed count results

Note&coin remains the obvious choice for retail businesses, banks and government organisations as it offers features that are unique in this class of counters:

- High-resolution & contrast, colour LCD display
- Charges from a standard 5V-USB charger
- Automatic coin denomination recognition
- Handles 6 different currencies simultaneously
- Foldable platform for a truly portable operation
- User-upgradable after purchase ([see reverse side](#))
